

FlexTime Manager Simplifies the Lives of Teachers and Administrators

Seamless activity period management without the hassle!

Teachers create their own activities based on when they want to offer them and what capacity they have, and can add any student, anytime

"Provides teacher with student classroom capacity and room assignments, requiring students to attend a session. Allows students to track schedule."

— Instructional Leader, Los Angeles Unified School District

"I would use it every day to track attendance and many other critical functions including helping teachers with lesson plans and tracking student progress."

— Teacher, Los Angeles Archdiocese

Principals and administrators enjoy effortless management of all students

FlexTime Manager's real-time dashboard display means principals know where students are at all times

"An extraordinary real-time activities management program where students can select the activities in which they'll be involved. Information is immediately available to the entire school community. The advisor for each activity knows who is interested and attending. This allows for follow-up with reluctant students, getting them more engaged in the school community."

— Department Chair | Coral Springs High School | Coral Springs, FL

FlexTime Manager makes it easy to stay organized!

"It keeps me on track, even in a hectic world."

— Admin | Online Charter School

Teachers love the dynamically updating attendance data!

Easily take attendance online while data from SIS is shared onto rosters

"I would recommend this product as it is a great tool to easily schedule flexible enrichment periods or other types of classes. Teachers and students will find it easy to use, and it integrates with AERIES."

— Teacher | Beverly Hills Unified School District | Beverly Hills, CA

Teacher override capability

Teachers can place students in mandatory activity slots anytime, regardless of what the student has selected

Facilitates easier remediation, timeliness of make-up work, and improved communication between teachers and students

"Teachers can assign make-up activities for absent students that would override their extracurricular activities, helping students to remember that they need to complete academic work first."

— Department Chair | Coral Springs High School | Coral Springs, FL

"Allows teacher to assign activities, such as tutoring, to students. Also then will not allow students to sign up for other activities if teacher has assigned them to one."

— Teacher | Sheridan Technical High School | Fort Lauderdale, FL

"This product solves the problem of becoming disorganized, especially in a grade that is departmentalized. It helps to keep all student activity organized in one location, along with student data."

— Teacher | Hollywood Park Elementary School | Hollywood, FL
