

What is FlexTime Manager:

FlexTime Manager, by Eduspire Solutions, introduces seamless activity period management without the hassle. This innovative application allows students to personalize part of their daily schedule, every day. For classrooms with device access (especially in 1:1 schools) who encounter administrative challenges when attempting to offer activity periods, FlexTime Manager is a versatile solution that promotes student-centered and super-charged activity periods with on-the-go customization and flexibility, meeting a variety of scheduling needs easily for students of all ability levels.

Good For	Features	Benefits
Multiple Activity Types	<ul style="list-style-type: none"> Teachers effortlessly create, manage and schedule their own activities, including regular activities (open to all), closed activities (for special groups), peer tutoring, and remediation activities (admin-selected rosters) 	<ul style="list-style-type: none"> Facilitates offering of a wide variety of activities and the ability to manage them all in the same period/interface. Both teachers and students enjoy unprecedented variety and flexibility
Serving Students	<ul style="list-style-type: none"> A simple interface provides the ability to effortlessly choose from teacher-scheduled activities in advance or on the spot FlexTime Manager handles all remediation needs seamlessly by integrating mandatory remediation rosters 	<ul style="list-style-type: none"> Students enjoy flexible, personalized choices, making learning fun! Offering many different academic activities during the same period boosts global participation, lowering the stigma associated with remediation
Simplifies Teachers' Lives	<ul style="list-style-type: none"> FlexTime Manager allows teachers to stay organized Simple drag-and-drop interface enables activity management without the hassle 	<ul style="list-style-type: none"> Easy to customize schedules without creating extra administrative work Fosters a more open student-teacher relationship
Administrators and Principals	<ul style="list-style-type: none"> A real-time dashboard display makes student management simple and efficient Dynamically updating attendance data allows online attendance while data from SIS is shared onto activity rosters 	<ul style="list-style-type: none"> Principals and administrators enjoy effortless management of all students Students' whereabouts are always known, eliminating extra work for admin staff
