

What is e-hallpass:

e-hallpass, by Eduspire Solutions, is a ground-breaking application designed to modernize today's antiquated methods of administering hall passes. The only comprehensive pass solution on the market, e-hallpass handles all pass situations, including bathroom and locker visits, library and hub spaces, and all pass requests from guidance, discipline, or the main office. A central dashboard continuously logs and monitors student time in the halls, improving school security and emergency management while reducing classroom disruptions by as much as 50%.

| Good For | Features | Benefits |
|--|---|---|
| Enhancing School Security | <ul style="list-style-type: none"> • Teachers receive notifications when students sign in at their destinations; alerts are received for extended absences or students who don't sign in • Admins have a first-ever live hall pass dashboard which enables them to see all current hall pass use in real time | <ul style="list-style-type: none"> • Tracking: Know building-wide who is in the hall at all times for effortless management of thousands of students • Devices not required in the hallways as all pass data is available from the central dashboard • Improved Safety: Quickly locate students in the event of an emergency and account for all whereabouts |
| Improving Student Behavior | <ul style="list-style-type: none"> • Student hall pass outliers can be flagged so that certain students are prevented from meeting in the hallways, and hall pass abusers are easily identified | <ul style="list-style-type: none"> • Data and insights gathered through reporting can be used to inform proactive conversations with students to stem problematic behavior |
| Simplifying Classroom Management | <ul style="list-style-type: none"> • Pass completion is simple and creates no extra work for the teacher • Can also be used for student call-downs or scheduled future passes for guidance, office visits, etc. | <ul style="list-style-type: none"> • Minimizes classroom interruptions as students take responsibility for filling out a pass, greatly improving efficiency • No more public announcements or phone calls to request students! |
| Future Pass Management and Hands-Free Capability for Teachers | <ul style="list-style-type: none"> • Auto Pass: Students can initiate and resolve their own passes for common pass destinations • Appointment Pass: Schedule future passes in advance for visits to guidance or make-up sessions in another classroom, etc. | <ul style="list-style-type: none"> • Reduces teacher involvement and interruptions to classroom instruction • Improves communication and coordination between teachers; decreases disruptions and saves time |

Cost and Implementation:

- Affordable per-user fees vary by school size, talk to your Solutions representative for details
- Typical implementation timeframe is 2-4 weeks.
- Streamlined implementation also available
- Flexible implementation options including integration into SIS or G Suite for Education
- Runs on Apple, Android, and Windows operating systems for multiple device capability
