

e-hallpass for Seamless Classroom Management

e-hallpass is a total pass solution,

providing interactive online digital hall pass technology to teachers, administrators and students

"Excellent tool for keeping track of students."

— Florida middle school teacher

"Streamlines the pass process."

— Pennsylvania teacher

It handles all pass situations,

including bathroom and locker visits, any teacher's classroom, any office, and library or hub spaces

Can also be used for student call-downs or scheduled future passes for planned classroom absences for guidance appts, office visits, etc.

"e-hallpass is a great tool for managing restroom visits in my classroom."

— Florida high school teacher

"I like the fact that passes for future events can be written ahead of schedule and notifications go straight to the student's device."

— Florida middle school media specialist

Decreases classroom interruptions

Pass completion is simple and creates no extra work for the teacher

Classroom interruptions are minimized, as the student takes responsibility for filling out the pass

Common passes (i.e. bathroom passes) can be set to auto-approve so that teachers can remain hands-free

"Great at allowing students in/out of class and tracking their time being out. Overall a great product."

— Minnesota junior high media specialist

"It is nice to see how many times a student has had a pass before allowing him/her to leave class."

— Pennsylvania middle school teacher

"This tool tracks the amount of time the student spends going to the bathroom, the office, other classes, etc. This will help with issues that arise with students skipping class and causing problems."

— Florida high school teacher

Facilitates communication between teachers, students, and parents

The data gathered from e-hallpass on each student's activity can prompt proactive conversations with students and parents in order to curb or avoid problematic behavior

"Great tool for positive behavioral supports. Having an electronic system of checking in and out is amazing."

— Florida elementary school teacher

"This product is reliable, efficient and valuable. Learning does not take place without safety and presence in class. It would curtail misbehavior."

— Florida teacher

Streamlined implementation options available

Simpler, faster, and more affordable setup for smaller schools

"Streamlined Implementation provides more choices for new customers. Schools that are comfortable managing much of their technical set-up independently now have the option of Streamlined Implementation. No new hardware required if building is 1:1 or BYOD."

— Pennsylvania teacher
