

VoiceChoicer for Empowering Student Preferences in Learning

TEACHERS ENJOY MORE OPTIONS

- Decide which activities to offer and designate a capacity for each unique offering
- Enjoy more organization and control, with ease of scheduling
- Promotes increased student participation and more positive student attitudes

- Voting system offers personalized choice: students rank their first, second and third choices
- Students can be easily assigned based on their votes
- Students can be automatically allocated to certain activities based on their preferences

STUDENT-CENTERED SCHEDULING

ATTENDANCE

- Streamlined attendance-taking and exported schedules present teachers with a clean and organized roster for attendance-taking purposes
- Integrates with SIS and school attendance rosters for a truly seamless experience

- Perfect for groups of teachers running a variety of activities where there may be limitations on the number of students who can participate in each
- Teachers can offer various activity options as often as desired
- Menu options and school details can be customized within the app to specific parameters

FLEXIBILITY

- Ability to offer and choose from multiple activities
- Teachers can move students as needed
- Students' choices inform teachers' future offerings
- Easy-to-use teacher and student interfaces offer drag-and-drop functionality
- Both teachers and students benefit from a more streamlined process that promotes student choice, variety, and organization

VARIETY AND CUSTOMIZATION

- Activity options, scheduled offerings, and participation information are visible to all
- Easy to see which students have not yet voted and encourage them to do so
- Reporting makes it easy to see first-choice placement history, ensuring fairness throughout the school year
